Relevant Experience 📅 9.3 Years

Senior Solution Specialist @ Deloitte Consulting

August 2018 - Present // Mechanicsburg, PA

Tools: Java, Vue, JavaScript, jQuery, WAS v8.x, Spring, JSP, Hibernate, RAD, IBM BPM, Oracle DB, Angular, SQL Developer, TFS, Git, SOAP UI, AWS, Google Analytics, Node.js, ReactJS, Bootstrap, Font Awesome, NLTK, Text Blob, SpaCy

As a senior full stack developer, I lead application teams and contribute to the architecture design. My responsibilities include:

- Lead Application Modernization, Migration and Digital Transformation efforts for systems
- Work with variety of different languages, platforms, frameworks, systems; to produce modern, performant, interactive, responsive, maintainable code for a diverse array of client and internal projects; ever ensuring thoughtful and coherent user experiences
- Communicating with multi-disciplinary geographically distributed teams of engineers, designers, producers, and clients daily; ensuring smooth, high quality and timely delivery
- Architected and implemented base framework of applications for both front and back end
- Working on RFP's for new prospects, providing technical assessment, architecture solutions and required POC's
- Lead efforts in Agile environment, interfacing with team - mentoring and providing technological expertise. Conducting code reviews
- Contributed technical/functional webinars and documented assets on unit/firm level

Technology Lead and Analyst @ Infosys Limited - Wells Fargo

March 2016 - August 2018 // Minneapolis, MN

Tools: Java, IID v8.x, Process Server v8.x, WAS v8.x, JPA, BPM, JavaScript, jQuery, Angular, SVN, MQ, SOAPUI, Oracle DB, Splunk, Dynatrace, MuleSoft, IBM Cloud [POC]

As a lead and senior developer for the bank's application platform team, I worked on Customer Due Diligence applications, that integrated with various external/internal systems to support global business teams. Constantly collaborated with clients, vendors and vast internal team.

- Handled end to end activities across architectural layers, over various phases in Waterfall/Agile; ensuring seamless delivery of numerous complex changes
- Led development of new features, and migration of scalable and performant applications
- Proactively researched/enabled self on new technologies, incorporated them to work stream
- Strived to be go to person in team for all tasks. Also conducted design/code reviews
- Produced knowledge sharing technical/functional assets and sessions, at firm/unit level

Technology Analyst @ Infosys Limited – Royal Bank of Scotland

Nov 2012 - March 2016 // India

Tools: Java, WID 7.x, Process Server 7.x, DataPower (XG45 and XI52), MQ, SVN, ClearCase, Git, Ant, Oracle SQL Developer, HPSA, SOAPUI, DB2, Derby DB, IIB [POC]

As a senior developer with specialization in SOA technologies, I contributed to numerous client teams, in Marketing & Sales division of the Banking & Insurance Domain.

- Worked all over the architecture stack of apps, in diverse activities across SDLC phases
- Participated in reviews, ensuring high quality, optimized result
- Acted as SCM SPOC, streamlining it to create structured, efficient process across teams
- Enabled self in upcoming technologies, contributed assets and sessions at firm/unit level

Software Developer @ Infosys Limited – Royal Bank of Scotland

Jul 2011 - Oct 2012 // India

Tools: Java, WID 7.x, Process Server 7.x, IBM MQ, WODM, SVN, HPSA, SOAPUI

As a developer I contributed to the applications for RBS, which dealt with online account opening and downstream MI of customers. My duties included design, development and testing using JAVA, related frameworks and integration tools to ensure smooth delivery across the different phases of Waterfall methodology

Skills

Programming Languages Java, JavaScript (ES6), HTML, CSS/Sass, SQL, Python, C, XML

Libraries & Frameworks

JavaEE, jQuery, React, Angular, Vue, Node.js, Spring, JSP, JSF, JSON, SOAP, REST, Bootstrap, NLTK, Text Blob, SpaCy

Tools

IBM Integration Designer v8.x, Process Server v8.x, WebSphere App Server v8.x, MQ, DataPower, MySQL, WODM, Docker, Google Analytics, SQL Developer, IIB, RAD, VMware, JIRA, Tortoise SVN, ClearCase, Git, SOAP UI, IBM DB2, Derby DB, Mongo DB, Eclipse, Jenkins, Dynatrace, Splunk, MS Office, MS Visual Studio Code, TFS

Platforms

Windows, Linux, OS X, IBM Cloud, AWS

Education

Anna University

2007 - 2011 // Chennai, India

Bachelor of Engineering in Electronics and Communication Engineering

Projects

- Portfolio with React (link provided above)
- NLTK/Text Blob based Search Services
- Microservices based responsive profiles
- Computer Vision based HCI

Awards and Recognition

Intellectual property

- Customized Vue, bootstrap based UI components framework for Global Deloitte Digital Library
- Contributed 25+ assets in various Industry driven Software Architectures

Certifications

- Microsoft Programming in HTML with JavaScript and CSS Specialist
- IBM WebSphere ESB
- IBM WebSphere Integration Developer
- IBM WebSphere Process Server
- IBM WebSphere MQ,
- IBM WebSphere ILOG JRules

Recognitions

- Deloitte Applause Award (2019,20)
- Infosys Dynamo Award (2014,15,16)
- Infosys Innovator Award (2017)
- PDMA India National Level Innovation Contest (2013)
